THE TM2 SUPPORT

PRESENTATION OF THE TM2 SUPPORT

The TM2 support allows you to transport a two-wheeled auxiliary vehicle either at the front or the rear of the tractor. Adaptable to all types of machinery, it is highly versatile and can carry loads of up to 1,000 kg. Its design combines the functionalities of two vehicles into one, offering great flexibility. It comes with agricultural weights of 500, 750, and 900 kg, adjustable according to needs, and is compatible with numerous options.

TECHNICAL SPECIFICATIONS

- Adaptable to **all types of tractor**, with a transport capacity of up to 1,000 kg.
- Based on the concept of **combining two vehicles into one**.
- Modular weights of **500, 750, and 900 kg**.
- Compatible with **numerous options**.

AGRICULTURAL WEIGHT

500, 750 & 900 Kg

STORAGE BOX

Lockable - 150 L

TOOLBOX

Lockable - 23 L

JERRYCAN HOLDER

Faucet provided - 20 L

THE TM4 SUPPORT

PRESENTATION OF THE TM4 SUPPORT

The TM4 is a piece of equipment specifically designed and manufactured to transport quads. It can be hitched to the front or rear of the tractor using the 3-point linkage, providing great flexibility. Its numerous adjustment features allow it to adapt to any quad model within moments. When not in use for transporting a quad, the TM4 folds away to avoid any protrusion.

TECHNICAL SPECIFICATIONS

- **3-point hitch**
- Maximum load : **500 kg**
- Maximum **quad dimensions** :
- Width : 135 cm, maximum wheelbase: 160 cm
- Unladen weight : **220 kg**
- Daytime **running lights**, turn signals, signage, and size markers
- Automatic **fastening straps**
- Colors: standard **gray or black**; custom colors available
