AGRICULTURAL TRANSPORT EQUIPMENT

OUR TM2 SUPPORT

The TM2 equipment allows you to transport a two-wheeled auxiliary vehicle directly on your tractor. Attach it to the front or rear using the 3-point linkage, depending on your needs, regardless of the tractor model.

AN AGRICULTURAL MASS ?

This equipment combines the TM2 supports with an agricultural counterweight offering loads of 500 kg, 750 kg, or 900 kg. Make your choice!

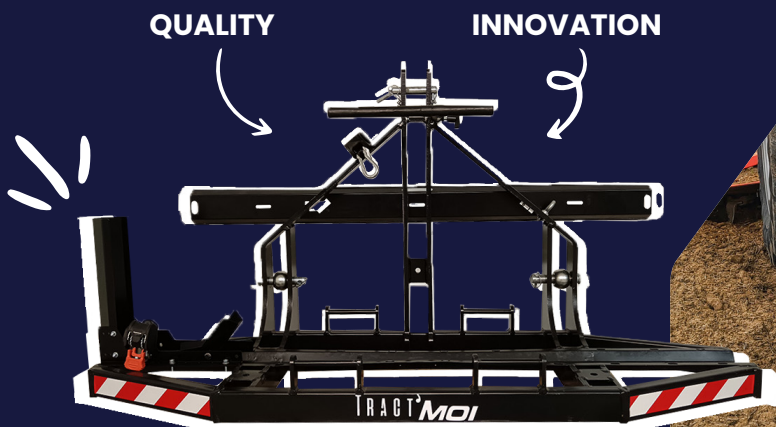

OUR AGRICULTURAL ACCESSORIES

Tract'Moi offers a wide range of accessories compatible with the TM2, always with the goal of simplifying your work. Visit our website to discover the toolbox, storage box, jerrycan holder, and more ...

OUR TM4 SUPPORT

The TM4 is a specially designed piece of equipment made for transporting quads. It can be attached to the front or rear of the tractor using the 3-point linkage, offering great flexibility. Its numerous adjustment features allow it to adapt within moments to any quad model. When not transporting a quad, the TM4 folds up to eliminate any offset.

DISCOVER THE CR20

COMPACT ALL-TERRAIN BIKE

750W-250W 20Ah

The CR20 is the most compact electric bike in its range. Its 20-inch tires and dual suspension provide a smooth ride across all terrains, especially agricultural ones. Features such as its low frame and padded saddle will win you over, offering a comfortable experience that combines accessibility and efficiency.

The CR20 boasts many advantages: a Bafang motor, a Samsung 48V 20Ah battery, and powerful hydraulic brakes. It is ideal for users between 150 and 185 cm tall and can support a maximum load of 150 kg.

VERSATILE ALL-TERRAIN BIKE

750W-250W 20Ah

The CR24 provides you with complete autonomy in your travels. Its low frame and premium suspension make it a versatile bike, combining sportiness and durability. Its cleverly designed frame and 24-inch tires ensure an ergonomic riding position for optimal comfort.

The CR24 is equipped with high-quality components, including a Bafang motor, a high-capacity LG 52V 20Ah battery, and a Shimano gear transmission system. It is ideal for users between 165 and 190 cm tall, seeking a sporty and dynamic riding experience. The CR24 can support a maximum load of 150 kg.
