INTRODUCTION

Who are we ?

Coming from an agricultural background, we are well aware of the challenges of mobility and autonomy on farms. That is why we founded CR INDUSTRY in Vendée to design, develop and market tailored solutions under the 'TRACT'MOI' brand.

As engineers with extensive experience in metallurgy, we wanted to meet the specific needs of farmers (livestock farmers, grain farmers, winegrowers, arborists, etc.). We therefore created a range of mobility

products designed specifically for them.

Today, CR INDUSTRY is a small business based in Vendée with a workforce of 10. We design and assemble all our equipment in our own workshops, ensuring local manufacturing that is controlled and tailored to the requirements of the field.

AGRICYCLES

electric bikes

all-terrain

Would you like to complete your equipment or simply enjoy a high-performance electric mountain bike designed for the most demanding conditions ?

Choose Agricycles: 3 models, 3 ways to win you over.

Designed to combine power, comfort and reliability, the CR20, CR24 and CR26 bikes are ready to take on any challenge. With a 250W Bafang motor (750W for private

use), a range of up to 90 km, long-life 48V batteries and reinforced tyres, nothing can stop them !

Aluminium frame, low or high step-through, luggage rack, front/rear lights: every detail has been designed for practical and intensive use.

Choose the model that suits you best from a range of modern and robust colours.

The advantages :

- 3 models approved for 25 km/h
- Off-road mode up to 45 km/h on private land
- Designed for off-road or agricultural use, robust and reliable
- Wide range of options: trailer, bucket holder, bag, top box, etc.

DAYTIME RUNNING LIGHTS AND INDICATORS

Daytime running lights and indicators are designed to ensure optimum visibility and enhance safety.

23 L TOOLBOX

With this product, you can store and secure all your accessories.

SUPPORT JERRY CAN

This option allows you to carry up to 40 litres: wash your hands, clean a room, etc.

TM2 SUPPORT

The TM2 equipment allows you to carry a 2-wheel auxiliary vehicle directly on your tractor.

AGRICULTURAL MASS

This equipment combines the TM2 support with an agricultural counterweight offering loads of 500 kg, 750 kg or 900 kg.

LARGE STORAGE CHEST

The 150-litre storage box allows you to transport and protect your tools.

TM4 SUPPORT

The TM4 equipment allows you to carry a quad bike and, like the TM2, fits directly onto your tractor.

40 L HELMET BOX

The helmet box, with its large capacity, allows you to carry your accessories.

MOTORCYCLE RAIL

The motorcycle rail, the perfect accessory to give your TM4 a whole new dimension.

PRODUCT SHEET

TM2 : TRANSPORT YOUR TWO-WHEELER !

General equipment information

The TM2 equipment allows you to attach a 2-wheel auxiliary vehicle directly to your tractor. Hitch it to the front or rear, on the 3-point hitch, depending on your needs, regardless of the tractor.

Technical specifications :

- ↔ 3-point hitch category 2 (category 3 on request)
- ↔ Low offset
- ↔ Ergonomic design reducing the severity of road accidents
- ↔ Front and side markings included
- ↔ Payload: 1000 kg
- ↔ Grey or black paint colour, other colours optional
- ↔ Optional headlight
- ↔ Sleeves included

The advantages :

- Fuel economy
- Independence: flexibility in organisation
- Efficiency and performance: time savings
- Adaptable to each individual for greater profitability
- Reduction in CO2 emissions

Which vehicles can I transport on my TM2 ?

- Scooter
- Bicycle
- Motorcycle (small size)
- Multiple compatibility...

TM2 : DISCOVER OUR OPTIONS !

JERRY CAN HOLDER

Stay self-sufficient with a few litres of liquid always at hand, even when on call.

- ↔ Capacity up to 40 L (two 20 L jerry cans)
- ↔ Painted steel support
- ↔ 20 L jerry can supplied with integrated tap
- ↔ Easily detachable
- ↔ Ideal for washing hands, rinsing tools or cleaning surfaces

Make the most of your TM2 support, even without a vehicle, with this sturdy and practical storage box.

- ↔ 150 L capacity for maximum storage space
- ↔ Aluminium design
- ↔ Quick attachment to the TM2 bracket in just 30 seconds
- ↔ Two integrated tool holders for quick access to tools

150L STORAGE BOX

TOOLBOX

Keep your tools safe and within reach with the 23-litre lockable toolbox.

- ↔ Key-lockable box
- ↔ Weatherproof
- ↔ Easily detachable from inside the bracket
- ↔ Capacity can be doubled with a second box
- ↔ Useful dimensions: 489 x 250 x 208 mm (L x D x W)

Ensure your safety when moving around the farm with the LED light kit, specially designed for the TM2 support.

- ↔ LED daytime running lights and indicators for optimum visibility
- ↔ Integrated protective cover for added durability
- ↔ 7-pin socket with extendable cable, easy to connect
- ↔ Optional kit for complete, customised installation

DAYTIME RUNNING LIGHTS AND INDICATORS

PRODUCT SHEET

QUAD BIKE CARRIER – TM4 SUPPORT

General equipment information

The TM4 is a piece of equipment specially designed and manufactured for transporting quad bikes. It can be attached to the front or rear of the tractor using the 3-point hitch, offering great flexibility. Its numerous adjustment features allow it to adapt to any model of quad bike in a matter of moments. When the quad bike is not being transported, the TM4 folds away so that there is no offset.

The advantages :

- Fuel economy
- Independence: flexibility in organisation
- Efficiency and performance: time savings
- Adaptable to each individual for greater profitability
- Reduction in CO2 emissions

Technical specifications :

- ✦ 3-point hitch
- ✦ Maximum load: 500 kg
- ✦ Maximum quad bike dimensions: Width 135 cm & maximum wheelbase 160 cm
- ✦ Unladen weight: 220 kg
- ✦ Daytime running lights and indicators Automatic fastening straps
- ✦ Signage and gauge marks
- ✦ Front plate colours: standard grey or black, custom colours available
